Sir:

Responsive to the Office Action mailed October 5, 2004, Applicant requests reconsideration and allowance of the above-referenced patent application.

Claims 1-49 are pending in the application. Claims 1, 6, 9, 12, 16, 17, 24-26, and 32-34 are provisionally rejected for obviousness-type double patenting. None of those claims is rejected based on prior art. The remainder of the claims are objected to as depending from rejected base claims, but are otherwise indicated to be directed to allowable subject matter.

MAX -- 10/603,600
Client/Matter: MDS/304000

Applicant is filing herewith a Terminal Disclaimer, thus obviating the double patenting rejection. Accordingly, Applicant respectfully requests that the various double patenting rejections be withdrawn and that the application be allowed.

Respectfully submitted,
